

## I Can Feel Safe

I go to different places and I have lots of people who look after me and keep me safe. My family always keeps me safe when I am with them. Like when I'm at home, or when I go places with my family like the grocery store, the toy store, or museums.

Lots of people keep me safe when I am at school. On my way to school, it's my bus-driver or helper on the bus who keeps me safe.

When I'm at school, it's my teacher and helper in my class who keep me safe. My principal and other people at school also keep me safe.

If I ever feel nervous or unsafe, all I need to do is go to an adult for help. If we need help we can call a police officer. Police officers can keep us safe too.

I will always have my family, school, and community, and they will always keep me safe. Knowing all the people who keep me safe makes me feel better.
