

EDUCATION & TRAINING SERVICES FOR THE COMMUNITY

Are you equipped with the tools and strategies needed to support individuals with autism and other developmental disabilities effectively? AutismUp offers customized training for professionals, including educators, medical providers, and early intervention teams. Our goal is to empower professionals to create supportive environments that foster success in classrooms, clinics, homes, and community settings.

Today, autism affects 1 in 36 children. In the Greater Rochester area, this translates to an estimated 20,000 individuals. Families and providers face significant challenges, and the demand for specialized training and resources continues to grow. Since 2004, AutismUp has grown to support more than 3,700 families and hundreds of providers, offering practical solutions to meet the needs of those impacted by autism.

Our expert-led training equips teams with evidence-based strategies to improve outcomes for individuals with autism and the professionals who support them. Together, we can create meaningful change and help families thrive. Reach out to learn how AutismUp can assist your team.

COMMUNITY AUTISM INCLUSION

Autism training for the community is designed to increase awareness, understanding, and support for individuals with autism spectrum disorder (ASD). This opportunity aims to create a more inclusive and accommodating environment by equipping community members with the knowledge and skills necessary to interact effectively with people on the autism spectrum.
